LAST NIGHT'S NEWS.

DOMESTIC.

Congress this Week.

SACRAMENTO, MONDAY MORNING, JUNE 14, 1886.

WASHINGTON, June 13th .- In the Hou of Representatives to-morrow the Committee on District of Columbia will claim th floor, under the rules, and consume the floor, under the rules, and consume the day with legislation of a local character. Tuesday the consideration of the legislative appropriation bill will be resumed, and although little that should cause delay remains to be acted on, yet it is probable that the antagonism that has been developed toward the Appropriation Committee will manifest itself in a few stray shots. Should the bill be off the field before Thursday, there will be a skirmlish for position between the Leber Commission of the commission mish for position between the Labor Com-mittee, armed with a number of bills drawn in the interest of workingmen, and the Naval Committee, with the naval apropriation bill. The members of the Yaval Committee think their bill can be isposed of in two days; and it is at least robable, if they succeed in getting it up, hat it will pass before the commencement of the struggle over the tariff bill. Per-onal and political debates, as lively as hose which characterized the proceedings the House last week, are also expected is week, an incidental effect of which will 48 secure an increased attendance of embers. The roll-call of Saturday re-

ealed the absence of over 140 members, ut strong efforts are making to secure a full house when Morrison moves to take up the tariff bill. In the Senate the Northern Pacific for-eiture bill is the unfinished business, and is to be taken up to morrow. When it is lisposed of, the bill to repeal the Pre-empdisposed of, the bill to repeal the Fre-emption, Timber Culture and Desert Land Acts will be taken up. Following that, it is expected that the subsidy debate will take place upon the report of the disagreement of the conferees upon the Post Office appropriation bill. The Committee on Appropriation bill. propriation bill. The Committee on Appropriations expect to report the pensions and Military Academy bills early in the week, but may not press them to consideration at once, and should any time remain not demanded by the Committee on Appropriations, the Des Moines bill and the open sessions resolutions will be taken up in their their true of the annual appropriations.

Manifesto Issued by Gladstone. London, June 13th .- Cladstone has issued

ne following manifesto to the electors of Midlothian:

GENTLEMEN; In consequence of the defeat of the bill for the better government of Ireland, the Ministry advised, and her Majesty was pleased to sanction, a dissolution of Parliament for a decision by the nation of the gravest and likewise the simplest issue that has been submitted to it for half a century. It is only a sense of the gravity of this issue which induces me, at a period of life when nature cries aloud for repose, to seek, after sitting in thirteen Parliaments, a seat in the fourteenth, and with this view to solicit for the fifth time the honor of your confidence. At the last election I endeavored, in-my addresses and speeches, to impress upon you the fact that a great crisis had arrived in the affairs of Ireland. Weak as the late Government was for ordinary purposes, it had great advantages for dealing with that crisis. A comprehensive measure proceeding from that Government would have received a warm and extensive support from within the Liberal party, and would probably have closed the Irish controversy within the present session, and have left the Parliament of 1885 free to prosecute the now stagnant work of ordinary legislation, With the multitude of questions it includes, my earnest hope was to support the late Cabinet in such a course of policy. On the 25th of last January, an opposite policy of coercion was declared to have been the choice of Midlothian:

CHICAGO, June 13th.—The three arbitrators—E. B. Thomas, Hugh Riddle and E. P. Vining—who, for the past few days, have been hearing both sides in the controversy between the Atlantic and Pacific and the Southern Pacific Railway Companies, growing out of the transcontinental war, rendered their decision this afternoon. The Atlantic and Pacific Company's line terminates at Mojave, and for the past two years there has been a contract between that company and the Southern Pacific Company, by which the Atlantic and Pacific Company was allowed to do business with San Francisca by writing the Southern Pacific line. cisco by using the Southern Pacific line from Mojave to that city. ### A GOOD WORK-HELP IT.

The San Francisco Girls' Union ha proved a great beneficence. It is proposed to establish several branches of the institution in interior towns and cities, and the proposition ought to meet with encouragement. Sacramento needs just such an organization, and the number of young girls straint, and in default of aid and encouragement to fight the battle of life honestly is simply frightful. The number that by are unable to find work is even larger. The number willing to go out to domestic housewifery, is very much larger than most people suppose.

We rail at the unwillingness of home has it ever occurred to us that there is some good reason for it, aside from mere disinclination? What opportunities have the mass of poor girls to learn to sew, cook care for a household, do marketing or practice the economies of the home, etc.? The truth is that we need in this State schools for service instruction. When they are established there will be an advance step taken toward solving the Chinese question so far as house service is concerned. Now the San Francisco Girls' Union proposes to enter upon this work, and it ought to have the word "God speed you" from every well-wisher of the race, and a good deal more-it ought to have material assistance from those able to give it.

and be given only to those who show a tion should go teaching that this kind of labor is honorable and dignified. The Girls' Union is not a "charity," as the word is usually understood. It is rather a fraternal association, the actuating motive being that fraternal regard which one woman, safe from the world's temptations, should feel for her sister, who is not. The Union receives young girls who arrive in the cities without friends, and are anxious to make an honest living No matter what the creed of the applicant, she is taken in and given a home until employment is found for her. When the girl is able to return the favor, she isexpected to contribute something to the Union to aid its work, and there are very few girls who avail of its benefits who are aungrateful. There are two classes of membership-the sustaining, consisting of those willing to aid the work from pure love of humanity, and the beneficiary, comprising those who have been aided by the association, and who are dependent upon their labor for a livelihood. The fee for such is but \$3 a year, and this entitles them to the aid of the Union in securing employment

whenever they are thrown out of it. It will be seen at a glance what a barrier to temptation flowing from poverty, what a safeguard to youth this association may thus be made. One scheme of the Union, as we have said, is to form training classes to fit girls for various vocations, the beneficiary members having the privilege of entering any of these classes. During the past year, we learn from the report of the Union now before us, employment was obtained for 300 girls, and that the Union had capacity for supplythat number applied. These girls were from their sheet-anchor and chief hope. not sent out to employment in San Francisco alone, but all over the State. An excellent regulation is that which limits the furnishing of trained hands to sustaining members of the Union only. Thus there is added to the impulse of charity, the stimulus of self interest and personal benefit. drunk. The majority in Butte is never large for either side. The impression prevails, and experience has demonstrated its There is in this city literally no place for the poor girl who lands here a stranger, except the station-house or the bawdynouse. The latter has its doors wide open constantly, the former gives temporary shelter only. It is shameful that this should be so, in a city boasting of its homes and its culture and its Christian charity. The Union, or some similar benevolent society, should have a home here, if it is no more than two rooms in a garret. where the homeless girl may find shelter and safety from the temptations of the street. We ought to help ourselves by helping friendless girls to be independent. THE LONGEST DAY.—The longest day of the year occurs on the 21st of this month. It is an event that takes place only once a year. The sun rises that day at 4:30 o'clock in the morning and sets at 7:25 in the evening; yet no steps have been taken toward celebrating the day. Indeed, it is not definitely known that Governor Stone-Almamac gives the same figures for the rising and going down of the sun for three days succeeding the 21st, but the great weight of authority is to the effect that the 21st is a fraction of a second longer than any other day of the year—enough to satisfy the Governor that he would make no mistake in setting apart that day. every remedy I could get and never
found anything to do me any good
until I used Simmons Liver Regulator. It has been nearly three

not had Sick Headache since, and
I never used but two and one-half
packages of the Regulator. I sent
my sister (who had from one to two
attacks of Sick Headache every

give it a fair trial."

Advice to Mothers.—Mrs. Winslow's 800THING SYRUP should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy fordiarrhea, whether arising from teething or other causes. During the heaviest part of the blow on Saturday, beginning at 7 A. M. and ending at 8 P. M., the velocity for each hour was as follows: 20, 26, 31, 37, 36, 31, 26, 28, 32, 29, 29, 26, 24 and 22. These are the figures as recorded on the self-registering anemometer, and are absolutely correct for that por-tion of Sacramento in which the Signal Office is situate. In riding out yesterday afternoon I noticed a great many young pears blown from the trees in the Hopping orchard, and also from the trees in Mrs Hooker's orchard, near her house. This may have a tendency to make the others remaining upon the trees grow larger, if they are not too much bruised. This scorching northerly wind must have done considerable damage to grain that was ripe, or nearly so, in having a tendency to srhivel it up and rattle it out of the heads. The highest and lowest temperature at Sacramento on Saturday and yesterday was 80° and 65° and 82° and 60°, respectively.

The First Artillery band furnished the music for the concert on the Capitol grounds last evening. The grounds are in excellent condition, the evening was cool and pleasant, and the grassy lawns, lighted by electricity, afforded an excellent prome-nade. The music-stand is situated in the roadway immediately opposite the main entrance to the Capitol building. The steps of the building afford seats for a large number, and the entire roadway is always occupied by parties seated upon camp-stools, and others standing around the platform or promenading. It is always crowded with men, women, children and paby carriages. One would think, under those circumstances, no one would drive igh such a crowd in buggies, carriages and hacks; yet it is done, and last evening the concert was nearly broken up by par-ties who apparently had neither sense of ife and limb such a breach of etiquette occasioned. The horses were frightened at Boat and Yacht Club of the same place, the music, and their dancing hoofs and the rattling wheels of the vehicles upon the rattling wheels of the vehicles upon the rough stone pavement not only destroyed the beauty of all the music, but caused many to leave the place in disgust who would otherwise have remained to the committee that they will be represented by both professional and amateur crews. The committee way at both ends of the Capitol, and no teams allowed in front of the building.

FEAST OF PENTECOST.—Several Portugues residents of the city went to Oakland vesterday, where they joined people of the same nationality, resident of that and neigh boring cities, in celebrating the Feast of Pentecost. There was a parade, in which two societies—the Luzitana, 250 strong, and the Irsuandado de Ordren, 150 me bers—and about 100 young ladies attired in the national colors, participated, and after wards high mass was celebrated at St. Patrick's Church, West Oakland. Subs quently there was a grand dinner, to which members of the orders mentioned and others were invited. Saturday night there was a ball, lasting until the small hours of resterday, and another dance last night. Next Sunday the Portuguese will rally at Temescal in honor of Trinity Sunday.

LOCAL INTELLIGENCE.

Sergeant Barwick's Report.
The northwest wind of Friday and Saturday was rather bad on vegetation. A fuchsia in full bloom on the north side of the Signal office building, was almost annihilated on Saturday, the leaves crisped up as though scorched by fire, and the blossoms withered, died and dropped off. Numerous trees were blown down in the city. The velocity of the wind in miles afternoon.

At the meeting Saturday the Music Committee reported that they had bids from the Hussar and First Artillery bands. As the proposals were read, several of the committee asked if the musicians "wanted the earth." Fifteen dollars per man for two hours' playing, the leaders regarded as very reasonable. Last year several "dummies" are said to have carried horns in line for that price. "Nary a toot, but \$15 all the same." The committee was instructed said to make the Altas. The umpire had done fairly up to that time, and the spectators had been feeling kindly towards the visitors. He made a little error immediately following Fisher's run, letting Hennessey have four strikes instead of three, but that didn't count for much, considering the way the latter, who is certainly out of practice, was playing. In the eighth inning Incell was declared put out at second, when he had not been touched, but from where the umpire stood if receiving a hard thump and and a slight cut. Death of Judge Cross. Judge Samuel Cross, one of Sacramento's pioneer and best known citizens, died at at that place Saturday. The remains wer his residence in this city yesterday forenoon at about 11 o'clock, after a very brief illness. He was upon the streets as usual but two or three days previous, and was not regarded even vesterday morning as seriously ill. His death resulted probably from suspended vitality rather than from any protracted disease. He was born March 12, 1812, and hence was in his 75th year. His birthplace was Londonderry, Ireland, but his ancestors were from France. At the early age of 7 years he came to America, and having located in Pennsylvania, attended school, and subsequently engaged in teaching until 1837, when he removed to Missouri. There he was engaged again in teaching, and in the study of law, until to-day, with a view of determining the locations of headquarters in San Fragisca during the location of the loca Missouri. > THE APACHES. Further Robberies and Murders by the Renegades.

Tueson (A. T.), June 12th.-Frank Proc or got in at noon to-day from Arivaca, where he arrived on Thursday morning, just after a raid. The Indians were very bold and audacious. The people whose stock was taken even heard their voices in the night, but were either too badly fright-ened or did not realize that they were Indians. Some horses were taken from the little corrals close to the houses. No one knew of the raid until next morning, and then no horses could be found for some time to take the trail. A party finally went in pursuit, and the trail led toward the Santa Cruz, between Tubac and Calabasas. During the forenoon of Thursday it was learned that Henry Baston, who had brought his family from a ranch three miles out to Arivaca, was missing and had not reached home the night before. Mr. Proctor went out with others, on the road he would have come, and finally his dead body was found, the man having been shot through the body, and through the head. He was lying behind the rear

head. He was lying behind the rear wheel of his wagon, with four empty cartridge shells near him. It is believed that one Indian engaged his attention from behind a tree upon the side hill, and that Baston jumped out on the opposite side of the wagon and fired. Two other Indians came up the canyon behind him and shot him dead. They cut out his pockets and pulled off his boots, but left them. They took his horses, bridles and reins, but left the horses during the night in Arivaca, where they secured others. where they secured others.

The wife of the murdered man, who lives in quite an isolated house near town, says he heard the Indians talking close to her she heard the Indians talking close to her house in the night. She put out the candle early, and was trembling with fear all night long. Mr. Proctor's party took the body to Arivaca, where it was buried on Thursday afternoon. From appearances it is supposed the Indians had jumped him quite early in the evening. They were on

oot, and when they went next morning they drove away about twenty horses. Three of the Indians were seen early Thursday morning by a Mexican, who had once been a trailer, and knows the Apaches from other Iudian tribes, and there is no doubt now about the matter. The pursuing party hope to chase the Indians over by the alisco ranch, down into the arms of som ment in Chicago, on and after August 1st, propose to abandon all window advertising. so that lithographic programmes, etc., in windows will no longer entitle any one to and killed Sharahan some time ago, as they left by the same trail and segmed to be left by the same trail and seemed to be thoroughly acquainted with the country. A party of troops, while scouting in the neighborhood of Calabasas a few days ago, came suddenly upon a party of two Americans and several Mexicans, all sleeping in

the brush near where the Government horses were at pasture. They all wore moccasins, and made a trail very similar to that of the Indians, and while it is generlly believed that they are gu there was no evidence sufficient to convic hem, and they were, therefore, set a iberty, after having been warned that death would be the penalty of their being found in similar circumstances again. They were utterly unable to give any satisfactory occount of themselves. When turned loose hey came down the Santa Cruz towards

The Doctor's Indorsement. Dr. W. D. Wright, Cincinnati, O., sends he subjoined professional indorsement: I have prescribed Dr. Wm. Hall's Balsam for the Lungs in a great number of cases and always with success. One case in par-ticular was given up by several physicians who had been called in for consultation with myself. The patient had all the symptoms of confirmed consumpti symptoms of confirmed consumption—coid nights weats, hectic fever, harrassing coughs, etc. He commenced immediately to get better and was soon restored to his usual health. I found Dr. Wm. Hall's Balsam for the Lungs the most valuable expectorant for breaking up distressing coughs and colds."

A fire Friday evening barned over several hundred acres of P. C. Clattery's pasture lands, situated two mikes north of Marysville. A mile and a half of fencing was destroyed. The loss is estimated at \$500.

Smith & McCarley's store, together with the Postoffice, at Shingleton, Shasta county, was entirely destroyed by fire Thursday night. Loss, \$12,000; insured in the Connecticut and Imperial Companies for the collection of such taxes and costs.

CLUNIE & KILEY, Corner K and Eighth streets, Sacramento, Cal.

Where now is our boasted American Liberty? It may interest the

public to learn that the WHOLESALE GROCERS of Sacramento have BOYCOTTED the "AMERICAN CASH STORE," at the demand of the GROCERS' UNION of this city, and I have found it impossible to buy a barrel of Sugar in town.

I hear that the reason assigned for this action of the GROCERS' UNION is that I sell Groceries so much below their old-time credit prices that it interferes with their business, and it is obvious that this method is resorted to to force me, if possible, to close the AMERICAN CASH STORE, in order that they may again be enabled to conduct business without offensive opposition.

I assure the people of Sacramento that I, however, have no idea of

giving up to this Monopoly, who regard me as a common enemy, and outnumber me twenty-five to one, and with a continuance of their liberal patronage will live on, and, as heretofore, sell the best and freshest GROCERIES at LOWER PRICES than can be found elsewhere in the city. Respectfully, O. F. WASHBURN. Pacific Wheel & Carriage Works.
